

## BIO

Aside from being one of the original founding members and principal songwriters of the hit rock band "Pablo Cruise," (Whatcha Gonna Do?, Love Will Find Away) Emmy Award winning composer, pianist, vocalist Cory Lerios has written and produced countless themes, songs, dramatic and comedic underscore for some of TV's most popular shows (Baywatch, Day's Of Our Lives, Diagnosis Murder, Max Headroom, and Land Before Time to name a few: see credits).

Since the mid '80's Cory has concentrated on perfecting the art of writing music for film and television.

"These days, due to some of the unbelievable technology available to composers, songwriters, TV producers and artists in general, there is really no limit to what a creative person can accomplish."

Whether writing a theme, underscore, collaborating with other talented songwriters or just playing the piano and singing, for Cory Lerios, any given day in his state of the art studio is a truly creative experience.

"To be able to do something you love on your own terms for a living, is something you never take for granted."

"IT'S ALL ABOUT PASSION!"
